Manchester Trade Mission

11 February 2025 | Manchester

In partnership with

ABOUT

About International Trade Centre

The International Trade Centre is the joint agency of the World Trade Organization and the United Nations.

ITC assists small and medium-sized enterprises in developing and transition economies to become more competitive in global markets, thereby contributing to sustainable economic development within the frameworks of the Aid-for-Trade agenda and the United Nations' Sustainable Development Goals.

About ITC SheTrades Initiative

The International Trade Centre (ITC) launched the ITC SheTrades Initiative to remove barriers to women's participation in trade by working with governments, the private sector and entrepreneurs to build the business capacities of women and to create a fairer, more sustainable global economy.

ITC SheTrades provides women entrepreneurs and producers with access to key knowledge, resources, and networks; supports policymakers on inclusive policy reforms; and leverage public and private partnerships to amplify the impact of our work.

About ITC SheTrades Commonwealth+ Programme

Funded by UK International Development and launched in April 2018, the SheTrades Commonwealth+ Programme aims to foster an enabling gender-inclusive business ecosystem by promoting inclusive policy and data and engaging business support organizations, private-sector partners, and women-led businesses in the Commonwealth countries and its key trading partners, including the Association of Southeast Asian Nations (ASEAN) region.
